CAREER OBJECTIVE

Aspiring to work as a Data Science or a Machine Learning professional to apply skills in data analysis, predictive modelling, and programming for solving real-world problems. Interested in working on end-to-end ML workflows including data preprocessing, feature engineering, model development, and performance evaluation. Seeking an opportunity to contribute to contribute to data-driven solutions, collaborate with cross-functional teams, and continuously enhancing technical, analytical and problem-solving expertise while building scalable and impactful AI applications.

EDUCATION QUALIFICATIONS

- **Bachelors of Engineering – Artificial Intelligence and Data Science**
  CMR Institute of Technology, Bengaluru, Karnataka
  CGPA:7.7, 2027(Pursuing)
- **12th- Science**
  Army Public School PRTC, Bengaluru, Karnataka
  88%, 2023
- **10th**
  Army Public School, Mamun Cantt, Pathankot, Punjab
  80%, 2021

TECHNICAL SKILLS

Programming Languages: Python, Java, C
Data Science and Analysis: Data Cleaning, Feature Engineering, EDA, Statistics for ML, Pandas, NumPy
Machine Learning & NLP: Supervised Learning, Classification, Model Evaluation
Visualization & BI: Power BI, Tableau
Web Technologies: HTML, CSS, Java Script, React
Databases & Tools: SQL, MySQL, Git, GitHub, Linux (Ubuntu)

PROJECTS

- **Title: AI-Powered Network Intrusion Detection & Attack Classification**
  - Engineered an intrusion detection system using the NSL-KDD dataset using preprocessing and feature selection with Python (Pandas, NumPy) to identify attack patterns.
  - Built and evaluated multi-class machine learning models in Scikit-learn to accurately classify DoS, Probe, R2L and U2R attacks using ROC-AUC, F1-Score, and confusion matrix (Matplotlib).
  - Developed a near real-time alerting workflow simulating SOC monitoring through automated Python scripting.
  - Tech Stack: **Python, Pandas, NumPy, Scikit-learn, Matplotlib**
- **Title: Phishing Website Detection using URL Intelligence**
  - Built a phishing URL detection system using Python and regex- based feature engineering to extract lexical and domain features.
  - Trained and optimized Scikit-learn models (Logistic Regression, Decision Tree) with features selection using Pandas and NumPy.
  - Developed a deployment-ready prediction module structured for browser extension integration using Python REST-style architecture.
  - Tech Stack: **Python, Regex, Pandas, NumPy, Scikit-learn**
- **Title: Diabetes Prediction & Risk Scoring System**
  - Performed data preprocessing and EDA on healthcare datasets using Pandas, NumPy, and Matplotlib to identify predictive patterns.
  - Built and validated Scikit-learn models (logistic Regression, Random Forest) on the PIMA dataset for diabetes risk prediction.

- Generated interpretable risk scores and implemented a Python-based screening workflow for preventive assessment.
- Tech Stack: **Python, Pandas, NumPy, Scikit-learn, Matplotlib**

INTERNSHIP

- **Company Name: Zidio Development**
  Duration: 3 months (Aug – Nov)
  Role: Data Science and Data Analytics Intern
  Responsibilities:
  - Collected, cleaned, and analyzed datasets using Python, Pandas, and NumPy to extract actionable insights and improve data quality.
  - Performed exploratory data analysis and built visual reports using Matplotlib/Seaborn and Excel/Power BI for decision support.
  - Automated data preprocessing and reporting workflows, reducing manual effort and improving analysis efficiency.

CO-CURRICULAR ACTIVITES

- **Online Courses and Certifications:**
  - Completed a course on Data Science Job Simulation from Forage, Mar 2025.
  - Completed a course on Introduction to Machine Learning from NPTEL-SWAYAM, Nov 2025
  - Completed a course on Full Stack Development in Infosys Springboard, Nov 2025
  - Certified in Agile and Scrum Training from Infosys Springboard, Dec 2025.
- **Hackathons:**
  - Participated in Smart India Hackathon 2024 organized by Govt of India.
  - Participated in Agentic AI Day organized by Hack2skill.
  - Participated in Smart India Hackathon 2025 organized by Govt of India
  - Participated in Gen AI Exchange Hackathon organized by Hack2skill.
  - Participated in Tecathon 6.0 organized by EY.
- **Leadership and Additional Responsibilities:**
  - Lead my team Data Voyagers to final SIH 2024, Gen AI Hackathon 2025 and Tecathon 6.0 through effective coordination and technical decision-making.
  - Acted as an ML expert in the team for model selection, better optimization, and mentoring teammates on data preprocessing and evaluation.

PERSONAL DETAILS

Date of Birth	: 25th May 2005
Gender	: Male
Nationality	: Indian
Permanent Address	: Happy Homes PRITHVI, Near Shilpa Bakery, P/o Horamavu Agara, Bangalore - 560043
Linguistic Competency	: English, Hindi, Odia
Hobbies	: Open-source coding, listening music, playing chess
