CAREER OBJECTIVE

Aspiring to work as a Data Science or a Machine Learning professional to apply skills in data analysis, predictive modelling, and programming for solving real-world problems. Seeking an opportunity to contribute to contribute to data-driven solutions while continuously enhancing technical and analytical expertise.

EDUCATION QUALIFICATIONS

- **Bachelors of Engineering – Artificial Intelligence and Data Science**
  CMR Institute of Technology, Bengaluru, Karnataka
  CGPA:7.7, 2027(Pursuing)
- **12th- Science**
  Army Public School PRTC, Bengaluru, Karnataka
  88%, 2023
- **10th**
  Army Public School, Mamun Cantt, Pathankot, Punjab
  80%, 2021

TECHNICAL SKILLS

- **Programming Languages:** Python, Core Java, C
- **Data Science and Analysis:** Data Cleaning, Feature Engineering, EDA, Statistics for ML, Pandas, NumPy
- **Machine Learning & NLP:** Supervised Learning, Classification, Model Evaluation
- **Visualization & BI:** Power BI, Tableau
- **Web Technologies:** HTML, CSS, Java Script, React
- **Databases & Tools:** SQL, MySQL, Git, GitHub, Linux (Ubuntu)

PROJECTS

- **AI-Powered Network Intrusion Detection & Attack Classification**
  - Engineered an intrusion detection system using the NSL-KDD dataset by performing advanced preprocessing and feature selection with Python (Pandas, NumPy) to identify crucial attack s.
  - Designed and trained multi-class machine learning models (Scikit-learn) to accurately classify DoS, Probe, R2L and U2R attacks.
  - Evaluated model performance using ROC-AUC, F1-Score, and confusion matrix analysis, with visual insights generated via Matplotlib.
  - Developed a near real-time alerting pipeline simulating SOC monitoring workflows through automated Python scripting.
- **Phishing Website Detection using URL Intelligence**
  - Built a phishing detection system by extracting lexical & domain-based features using Python and regex-based feature engineering.
  - Trained and optimized classification models (Logistic Regression, Decision Tree) using Scikit-learn to enhance phishing detection accuracy.
  - Improved prediction efficiency through data-driven feature selection and statistical analysis using Pandas and NumPy.
  - Developed a deployment-ready prediction module structured for browser extension integration using REST-style Python architecture.

- **Diabetes Prediction & Risk Scoring System**
  - Conducted data preprocessing and exploratory data analysis (EDA) on healthcare datasets using Pandas, NumPy, and Matplotlib to uncover predictive health patterns.
  - Developed and validate machine learning models (logistic Regression, Random Forest) using the PIMA dataset to predict diabetes risk.
  - Generated interpretable patient risk scores using features importance analysis to support early clinical intervention decisions.
  - Implemented a structured patient screening workflow through Python-based application logic for preventive risk assessment.

INTERNSHIP

- **Company Name: Zidio Development**
- **Duration: 3 months (Aug – Nov)**
- **Role: Data Science and Data Analytics Intern**
- **Responsibilities:**
  - Collected, cleaned, and analyzed datasets using Python, Pandas, and NumPy to extract actionable insights and improve data quality.
  - Performed exploratory data analysis and built visual reports using Matplotlib/Seaborn and Excel/Power BI for decision support.
  - Automated data preprocessing and reporting workflows, reducing manual effort and improving analysis efficiency.

CO-CURRICULAR ACTIVITES

- **Online Courses and Certifications:**
  - Completed a course on Data Science Job Simulation from Forage, Mar 2025.
  - Completed a course on Introduction to Machine Learning from NPTEL-SWAYAM, Nov 2025
  - Completed a course on Full Stack Development in Infosys Springboard, Nov 2025
  - Certified in Agile and Scrum Training from Infosys Springboard, Dec 2025.
- **Hackathons**
  - Participated in Smart India Hackathon 2024 organized by Govt of India.
  - Participated in Agentic AI Day organized by Hack2skill.
  - Participated in Smart India Hackathon 2025 organized by Govt of India
  - Participated in Gen AI Exchange Hackathon organized by Hack2skill.
  - Participated in Tecathon 6.0 organized by EY.
- **Leadership and Additional Responsibilities:**
  - Lead my team Data Voyagers to final SIH 2024, Gen AI Hackathon 2025 and Tecathon 6.0 through effective coordination and technical decision-making.
  - Acted as an ML expert in the team for model selection, better optimization, and mentoring teammates on data preprocessing and evaluation.

PERSONAL DETAILS

Date of Birth	: 25th May 2005
Gender	: Male
Nationality	: Indian
Permanent Address	: Happy Homes PRITHVI, Near Shilpa Bakery, P/o Horamavu Agara, Bangalore - 560043
Linguistic Competency	: English, Hindi, Odia
Hobbies	: Open-source coding, listening music, playing chess, playing billiards
